## STATE FINANCE

### FISCAL 2013 STATE TAX COLLECTIONS COMPARED WITH PROJECTIONS USED IN ADOPTING FISCAL 2013 BUDGETS— Continued (In millions of dollars)

---

*Source:* National Association of State Budget Officers, *The Fiscal Survey of the States*, December 2013.

*Note:* Unless otherwise noted, original estimates reflect the figures used when the fiscal 2012 budget was adopted, and current estimates reflect preliminary actual tax collections.

*Key:*

H — Revenues higher than estimates.  
L — Revenues lower than estimates.  
T — Revenues on target.  
NA — Indicates data are not available because, in most cases, these states do not have that type of tax.

(a) Refers to whether preliminary actual fiscal 2012 collections of sales, personal income and corporate taxes were higher than, lower than or on target with original estimates.

(b) Totals include only those states with data for both original and current estimates for fiscal 2012.

(c) Total general fund revenue collections in fiscal 2013 were higher compared to revenue projections at the 2012 Budget Act.

(d) OSPB forecasts from March 2012 and June 2013.
