Entertainment Industry Investment

This Act is targeted at retaining and expanding film, television, and digital media production in the state. The foundation of the Act is a 20% transferable tax credit. Production companies that spend a minimum of $500,000 in the state on qualified production and post-production expenditures are eligible for this credit. This includes most materials, services and labor. For example, credits generated by qualified productions may be used by the production against income taxes or payroll taxes or sold/transferred to a third party for use against the purchaser’s state tax liability. The 20% credit applies to both residential and out-of-town hires working in the state with a salary cap of $500,000 per person, per production, when the employee is paid by “salary,” which is defined as being paid by W2. If the production company uses a 1099 or a personal services contract to hire someone the $500,000 limit does not apply.

The Act offers an additional 10% tax credit if a production company includes a state promotional logo in the qualified finished feature film, TV series, music video or digital media product.
