Note: Detail may not sum to totals because of rounding.

Key:

n/a.— Not applicable.

(a) Local revenues include intermediate revenues from education agencies with fundraising capabilities that operate between the state and local government levels.

(b) U.S. totals include the 50 states and the District of Columbia.

(c) Both the District of Columbia and Hawaii have only one school district each; therefore, neither is comparable to other states. Local revenues in Hawaii consist almost entirely of student fees and charges for services, such as food services, summer school, and student activities.

(d) Reported state revenue data are revenues received from the central government of the jurisdiction.
